Hello Doug

This new storage building proposed for 176 meeting house lane is for storage of landscaping equipment and two vehicles that are used to maintain town property. All the garages/sheds we use now are packed full with equipment/vehicles so we do need to keep some equipment/vehicles outside. With equipment/vehicles stored outside it leave them exposed to the elements and possible vandalism. The plan is for the current building we work out of now to stay as our main shop for basic maintenance on the lawn mowers and storage for what will fit in there. Regular vehicle maintenance will still be done at Public Works. The new building will become storage for our equipment that is stored outside and allow more walk around space in the other storage units.

In the winter months we are not actively working at the Camp Oakdale facilities, however during the working season there are bathrooms on the premises.

Thanks

John Carlson  
Director Of Public Works  
Town of Montville  
860-848-7473
