

FREE Radon Test Kits

Uncas Health District is helping residents take proactive steps for their health. Throughout January 2025, the district will provide **50 free radon test kits on a first-come, first-serve basis.**

These kits are available exclusively to residents of Bozrah, Franklin, Griswold, Lebanon, Lisbon, Montville, Norwich, Preston, Salem, Sprague, and Voluntown.

Testing your home for radon is a simple yet vital step in protecting your family's health. If elevated radon levels are detected, mitigation measures can significantly reduce exposure.

How to Get Your Free Radon Test Kit

- **Pick-Up Location:** Uncas Health District Office, located at the Uncas on Thames Campus, 401 West Thames Street, Norwich, Conn.
- **Eligibility:** Test kits are only available to residents of the towns listed.
- **Requirements:** Residents must provide their contact information and the location where the test will be conducted for follow-up purposes.
- **Availability:** Supplies are limited, so plan to visit early in January to secure your kit.
