

TRINGE TWO LOT RESUBDIVISION
TOWN OF MONTVILLE
INLAND WETLANDS APPLICATION
CHECKLIST

N/A

- | | | |
|-------------------------------------|-------------------------------------|---|
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | Completed application signed by the property owner. If you are acting on behalf of the property owner than a letter must also be submitted by the property owner stating that you are acting as his/her agent. |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | Application must have the disturbance area in square feet and acres to include the buffer area, as well as, the wetland area and what type of activity it will be in tabular format. |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | A narrative describing the activities to take place on the property. This is to include but not limited to: <div style="margin-left: 40px;"> <input type="checkbox"/> Alternatives considered.
 <input type="checkbox"/> Description of the activity including location and square foot of Disturbance.
 <input type="checkbox"/> What type of erosion and sediment control will be used?
 <input type="checkbox"/> If machinery will be used or if work will be done by hand.
 <input type="checkbox"/> Identify the sub-drainage basin where the proposed activity will occur. </div> |
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | List of abutting property owners and names indicated on plan. |
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | Location of all wells and septic systems of abutting property owners, as well as, any located onsite. |
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | Existing and proposed contours at five foot (5') contours. |
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | Location of all designated wetland and watercourse areas by a Certified Soil Scientist. A soils report from the soil scientist shall also be provided along with a live signature and stamp on the plans. |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | Location of all Flood Zones per Federal Flood Insurance Rate Maps. |
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | Location of all existing and proposed buildings and their uses. |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | Location of all crossings and storm water drainage systems and their drainage. Calculations based on ten (10) and twenty-five (25) year storms. In addition all points of ground water discharge will also be shown. |
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | Location of all Erosion and Sediment control devices and an Erosion & Sediment control plan. |
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | North arrow and location key at 1" = 1,000' |
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | DEEP Report Form. |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | The requirements of Section 7.5 shall apply if the proposed activity has been determined significant. |

N/A

- | | | |
|--------------------------|--------------------------|---|
| <input type="checkbox"/> | <input type="checkbox"/> | Site plans for the proposed use or operation and the property which will be affected, which show existing and proposed conditions, wetland and watercourse boundaries, land contours, boundaries of land ownership, proposed alterations and use of wetlands and watercourses, and other pertinent features of the development drawn by a licensed surveyor, professional engineer or landscape architect registered in the State of Connecticut or by such other qualified person; |
| <input type="checkbox"/> | <input type="checkbox"/> | Engineering reports and analyses and additional drawing to fully describe the proposed project and any filling, excavation, drainage or hydraulic modifications to watercourses and the proposed erosion and sedimentation control plan; |
| <input type="checkbox"/> | <input type="checkbox"/> | Mapping of soil types consistent with the categories established by the National Cooperative Soil Survey of the U. S. Soil Conservation Service (the Commission may require the applicant to have the wetlands delineated in the field by a soil scientist and that the field delineation be incorporated onto the site plan); |
| <input type="checkbox"/> | <input type="checkbox"/> | Description of how the ecological communities and functions of the wetlands or watercourses involved with the application and the effects of the proposed regulated activities on these communities and wetlands functions; |
| <input type="checkbox"/> | <input type="checkbox"/> | Description of how the applicant will change, diminish, or enhance the ecological communities and functions of the wetlands or watercourses involved in the application , and with each alternative, and a description of why each alternative considered was deemed neither feasible nor prudent; |
| <input type="checkbox"/> | <input type="checkbox"/> | Analysis of chemical or physical characteristics of any fill material; |
| <input type="checkbox"/> | <input type="checkbox"/> | Measures which mitigate the impact of the proposed activity. Such measures include, but are not limited to, plans or actions which avoid destruction or diminution of wetland or watercourse functions, recreational uses and natural habitats, which prevent flooding or degradation of water quality. |

In addition to this checklist, the applicant is also responsible for those items listed in the
EROSION & SEDIMENT CONTROL CHECKLIST
