

Problem

Over growth North and south side of water course

Resolutions

1. Cut down and remove overgrowth.

2. Plant wetlands grasses

- South side 15 Feet wide, water to garden
- North side 12 Feet wide, water to Driveway

Problem

Sediment buildup obstructs waterflow causing water to flow over Road, and sometimes in to garage.

Resolutions

1. Remove sediment (as needed) to restore water flow under driveway.

2. Install 6 inch overflow pipes as needed.
(see attached)

Problem

Pot holes and ruts in driveway

Resolution

Grade and fill low areas of driveway with processed gravel.
