Consolidated Permit Notice
Intent to Renew with Minor Modifications Various General Permits for
Diversion of Water for Consumptive Use

001119555

The Commissioner of the Department of Energy and Environmental Protection ("DEEP") hereby gives notice that a tentative determination has been reached to renew with modification the General Permit for the Diversion of Water for Consumptive Use: Authorization Required Categories, General Permit for the Diversion of Water for Consumptive Use: Filing Only Categories, General Permit for the Diversion of Water for Consumptive Use: Non-Filing Categories, and General Permit for the Diversion of Water for Consumptive Use: Reauthorization Categories.

The current general permits expire on January 17, 2027. By publishing this Notice at least 180 days prior to the expiration date of the current general permits, Section 22a-6aa of the Connecticut General Statutes (CGS) authorizes the current general permits to continue in effect until January 17, 2028, or until the Commissioner makes a final decision on the renewal of the general permit, whichever is earlier. If no final decision is made by January 17, 2028, the general permits shall expire.

COMMISSIONER'S FINDINGS/REGULATORY CONDITIONS

In accordance with applicable federal and state law, the Commissioner has made a tentative determination that the renewal with modification of these general permits would cause minimal environmental effect when conducted separately and would cause minimal cumulative effect with no adverse effect on existing or potential uses of water for potable water supplies, hydropower, flood management, water-based recreation, industry or waste assimilation.

PROPOSED GENERAL PERMITS

The general permits DEEP intends to renew with modification are four types of the General Permit for the Diversion of Water for Consumptive Use, each with a particular set of eligible categories and different approval requirements. The purpose of these general permits is to authorize minor activities regulated by the Commissioner under CGS Section 22a-365 through 22a-379 (Connecticut Water Diversion Policy Act). The general permits subject to this public notice are:

b. Withdrawal of up to 250,000 gpd – Bedrock Aquifer
c. Interconnection and Transfer of Up To 1,000,000 gpd – Raw Water
2. General Permit for Diversion of Water for Consumptive Use: Filing Only Categories will authorize the following activities if they are within the jurisdiction of the DEEP subject to certain conditions:
a. Back Up Well
b. Large Tidally Influenced Rivers
c. Small Supplemental Bedrock Well
d. Small Water Supply System
3. General Permit for the Diversion of Water for Consumptive Use: Non-Filing Categories will authorize the following activities if they are within the jurisdiction of DEEP subject to certain conditions:
a. Pump and Recharge Geoechange System
b. Non-Contact Cooling – Surface Waters
c. Hydrostatic Testing of Pipes and Tanks
d. Long Island Sound
e. Remediation Groundwater
f. Interconnection and Transfer of Treated Water
4. General Permit for the Diversion of Water for Consumptive Use: Reauthorization Categories will authorize the following activities if they are within the jurisdiction of DEEP subject to certain conditions:
a. Withdrawal of up to 250,000 gpd – Surface Water / Stratified Drift Aquifer
b. Withdrawal of up to 250,000 gpd – Bedrock Aquifer
c. Interconnection and Transfer of Up To 1,000,000 gpd
d. Back Up Well
e. Large Tidally Influenced Rivers
f. Small Supplemental Bedrock Well
g. Small Water Supply System
h. Water Supply System Interconnection
i. Unregistered Water Supply Systems
j. Diversion of up to 250,000 gallons per day New Water
k. Restoration of Lost Capacity

The General Permit for the Diversion of Water was first issued in 1997. This would be the fourth re-issuance of this general permit.

COMMISSIONER'S AUTHORITY

The Commissioner is authorized to issue these general permits pursuant to CGS sections 22a-6 and 22a-378a.
